

Keyless Entry Remote Fob Programming Guide

1. Enter the car, close the driver's door, and lock the car using the 'lock' button on the inside door panel.
2. Insert the key into the ignition and remove it 10 times. This step **MUST** be completed within 6 seconds.
 - The hazard lights on the cluster will flash when completed.
3. After hazard lights flash, turn the key to the 'ON' position. (Do NOT start the engine)
4. Press and hold the 'Lock' button on the new remote FOB until hazard lights flash again. This indicates programming is complete.
5. Turn off ignition and remove key. Open door and test remote.

Applicable Models:
